

The Altechna logo consists of the word "Altechna" in a blue, sans-serif font. The letter 'A' is stylized with a small triangle above it.

Altechna Coatings

Vilnius, Lithuania

<https://www.altechna.com/>

Short profile

Altechna Coatings is a laser optics manufacturing company based in Lithuania. The company was established in 1997 under the name of Optida. Altechna Coatings specialises in optical coating deposition using e-beam, ion beam sputtering and reactive magnetron sputtering technologies. With many years of experience the company excels in the exploitation of physical vapour deposition technologies, designing and manufacturing of various types of dielectric and metallic coatings for UV-VIS-NIR spectral ranges. The company supplies coated optical components for laser applications in industrial, military, medical and academic fields.

What we offer

- Substrate cleaning and chemical or plasma pre-treatment
- Optical coating deposition using electron beam, ion beam sputtering, reactive magnetron sputtering or thermal evaporation
- High LIDT coatings

What we are looking for

- Joint R&D projects directed at producing marketable laser-oriented product or technology
