

QS Lasers

Vilnius, Lithuania

www.qslasers.com

Short profile

QS Lasers is designing and manufacturing DPSS, compact sub-ns lasers and laser systems for OEMs and integrators. Less than 350ps pulse duration, high pulse energy up to 2mJ and 1000Hz repetition rate is used in medical systems, remote sensing, LIBS and many others.

What we offer

- Design and production of compact sub-nanosecond lasers
- Development of short pulsed DPSS lasers

What we are looking for

- OEM integrators in LIBS application
- OEM integrators for medical systems
- R&D projects

Meet-a-Match
