

SeeTrue Technologies Oy

Joensuu, Finland

www.seetruetechnologies.com

Short profile

Brighterwave SeeTrue Technologies creates **world's most-advanced customizable eye-tracking solutions** based on robust sensors and unique computer vision approach. Our solution is based on a decade of research and experience in computational optics and applied eye-tracking, **leading to the most robust eye-tracking ever.**

Eye-tracking offers detailed insights into the direction of user's attention and point of gaze. We can build interactive systems that utilize eye-tracking as a passive and active sensor, allowing unprecedented control and prediction of next targets. Visualization of the gaze in time and space exposes information about interest and knowledge.

What we offer

- Eye-tracking solutions for medical, VR/AR/XR and user research

What we are looking for

- Customers

Meet-a-Match
