

Exhibitor Package

Date: 29th/30th October 2019

Venue: Hanau, Congress Park Hanau

High resolution and low power consumption are only two advantages of microdisplays. Their small screen sizes allow for their application in digital cameras and head-mounted displays.

The “**Photonics Hub Symposium - Microdisplays 2019**” will offer a platform to promote the dialogue and discussion between engineers, researchers and users in the field of innovative microdisplays technologies with a strong focus on VR/AR applications.

The program includes:

- Sessions on **LCoS, microLED, OLED and DLP** technologies
- Focus session on **VR/AR applications**
- Accompanying **tabletop** exhibition

We invite you to join us as Exhibitor!

The exhibitor package includes:

- Attendance fee for **1 participant**
- **Tabletop space** for exhibition during breaks
(Table size 140 cm x 70 cm; one power supply 220-230V, 50 Hz)
- Space for 2 roll-ups (max. width 100 cm)
- Listing on flyer and website as exhibitor with **logo**

Members of German Photonics Innovation Networks	690,00 €*
